REVISION**

Dear Mr. Lubinski,

Nuclear Regulatory Commission (NRC) Regulatory Issue Summary (RIS) 2003-02, 'Importance of Giving NRC Advance Notice of Intent to Pursue License Renewal,' dated February 3, 2003, requested that licensees provide a written, voluntary submission of licensees' plans regarding license renewal. The purpose of this letter is to formally notify the NRC of changes to the submittal schedule for STARS Alliance member stations noted on the NRC License Renewal website as STARS No. 6 and 7. Previous changes to the STARS schedule were last transmitted to you by letter dated September 12, 2012 (STARS-12003).

STARS Station 6 is shown on the NRC License Renewal website to be submitting an application between July and September 2016. The revised submittal date is now scheduled to be the fourth quarter 2018. STARS Station 7 is shown on the website to be submitting an application October to December 2018. There will be no STARS Station 7 License Renewal Application submittal.

If there are any questions regarding these changes, please contact me at 602-525-4770 or tony.harris@starsalliance.com.

Sincerely,
